During the telephone interview conducted on December 3, 2009 between Examiner Johannes P. Mondt of the United States Patent and Trademark Office and Applicant's representative, Andrew J. Taska, the Examiner alleged that the Substitute Specification filed on June 10, 2004 was not submitted with a statement that the Substitute Specification contains no new matter as allegedly required by 37 C.F.R. § 1.125(b). However, the Examiner indicated that this was an informality that could be satisfied by submitting a Statement Under 37 C.F.R. § 1.125(b) that the Substitute Specification filed on June 10, 2004 contains no new matter.

Accordingly, Applicant hereby states that the Substitute Specification filed on June 10, 2004 contains no new matter.

Entry and consideration of this Statement Under 37 C.F.R. § 1.125(b) is respectfully requested.

Respectfully submitted,

/ Andrew J. Taska /
